SECOND READING LAND BILL.

Lengthy Discussion in House Over Olaa Park Reservation.

CENSUS FOR 1895 RECOMMENDED.

Pioneer Coffee Planters Ask for Concessions—Act Concerning Vehicle Tires and Wheels—Electric Railway Bill Special Order in House—Etc.

TENTH DAY—JUNE 25TH.

The Senate assembled at the usual hour with all members present. After the prayer by the Chaplain and reading of the minutes, Minister Hatch gave notice of a bill to regulate the National Guard. Minister Damon also gave notice of four appropriation bills.

A petition signed by Theo. F. Lansing, Dr. M. E. Grossman, G. W. Smith, T. E. Grossman and P. Muhl-

HON. W. H. RICE, SENATOR FROM FOURTH DISTRICT.

endors, interested in coffee planting on Hawaii, was presented. The substance of this petition is as follows:

We would respectfully represent to you that we are holders of land in the Ahupuaa of Olaa, District of Hawaii, under a lease from the Commissioner of Crown Lands, the same being among the lands and leases particularly referred to in Part IX, Sections 80-85 of the Land Act now being considered by you. The petitioners state that when these lands were first offered to the public it was with great difficulty that settlers were induced to take them up, parties living in the district ridiculing the idea of that dense forest and undergrowth ever being able to produce any coffee.

To those who did take up these lands and faithfully carry out the cultivation of same as required by the conditions of their leases belongs the credit alone of these lands being brought so prominently before the public.

These lessees have carried on such cultivation at an extraordinary large expense for clearing and planting, and they are still obliged to continue such work at an additional expense before being able to produce any satisfactory proof of profitable returns; and it should be the aim of this Government to aid and assist the pioneers of this district to practically demonstrate that these lands produce a merchantable article that will favorably compete with the same product grown in other parts of the world.

Money, labor and time have been spent by these lessees. The red spider cut worm and pests of the coffee plant have time and again discouraged them, still they faithfully carry on their work in hopes of reaping a reward. We know full well that the Government does not stand ready to reimburse lessees in case their efforts prove a failure, but can, without a dollar of cost, and with large prospective financial gain, afford to deal generously with said lessees.

It is therefore requested that all the present holders of said crown land leases, who, at the expiration of the third year of their lease, faithfully and substantially cultivated and improved their land as required by the conditions of their lease, may at any time after the first payment of rent, be entitled to purchase the respective areas covered by their leases; also, in case of a single individual holding a less area, be privileged to increase the same to not more than 200 acres, and receive a land patent for same upon payment of the unimproved values, as follows: First line of 50-acre lots, \$6 per acre; second line of 50-acre lots, \$4; all other lots \$3 per acre. That the clause stipulating construction of buildings and all improvements shall be considered complied with, if the value of all improvements on that land shall aggregate the total amount required in planting, buildings and fences.

That the Government reservation of land along the volcano road which is now held by present lessees and for which under their lease they will have to pay rent, should not exceed 150 feet in depth and should the Government decide to dispose of such reservation, the owners of land immediately in the rear shall be privileged to purchase the same at the price stipulated for the last line of lots.

There is a large area of land situated in the rear of the land covered by these leases that cannot be settled upon, owing to the lack of roads to them. There has been reserved at regular distances a thirty foot strip for the purpose of building roads to such lands. We believe that under the conditions we ask for, the Government will at an early day, be in receipt of such a sum of money from the present lessees as will enable them, under the amendment christened by Minister Damon before the Representatives as "Investment" to vigorously carry on such road building. The lands thus opened will as soon as present lessees prove that coffee can be successfully raised be enhanced in value to such an extent as to repay the Government for the outlay.

The Government is interested as

well as the present lessees in the cultivation now going on therefore the executive and Legislature should encourage them in every way possible. This petition was referred to the special land bill committee.

The committee on Public Health and Education, Sen. G. N. Wilcox, chairman, reported favorably upon the recommendation of the Labor Commission that at the regular census be taken this year. The report of the committee was tabled to be considered with the bill.

The report of the special committee on the Land bill was presented by Senator Lyman. The committee recommends a large number of changes in the bill, and concedes many of the points made by the representatives of the Olaa coffee planters. Their report was tabled, to be considered with the bill.

Senator McCandless' bill to regulate vehicle tires and wheels was read the first time, and on motion of Senator Baldwin was referred to the Committee on Public Lands and Internal Improvements. This bill provides that after July 1, 1896, the width of tires of vehicles shall not be less than set forth as follows: Class 1—All ox carts, 6 inches. Class 2—Two-horse goose-neck drays, hind wheels 5 inches, front wheels 4 inches; watering carts, all wheels 5 inches; two or three horse dump carts, 6 inches. Class 3—Four-horse wagons, all tires 4 1/2 inches. Class 4—One-horse goose-neck drays, two-horse four-wheel dump carts, hind wheels 4 inches, front wheels 3 inches; two-horse wagons and one-horse dump carts, 4 inches. Class 5—One-horse goose-neck drays with springs, hind wheels 3 1/2 inches, front wheels 3 inches; four-horse omnibuses, 3 1/2 inches. Class 6—Two-horse omnibuses, two-horse express wagons and one-horse wagons, all wheels 3 inches. Class 7—Wagonettes, one-horse baggage express wagons, four-wheel butcher wagons, 2 1/2 inches. Class 8—Milk wagons, two-wheel butcher carts, one-horse vegetable wagons, 2 inches. Class 9—Hacks and carriages with seats for four people, 1 1/2 inches. Any owner or driver of a vehicle used on a public road contrary to the provision of the Act is liable to a fine of \$5, and any vehicle with tires 1 1/2 inches wider than required by the Act is exempt from taxes.

Any owner or driver of a vehicle used on a public road contrary to the provision of the Act is liable to a fine of \$5, and any vehicle with tires 1 1/2 inches wider than required by the Act is exempt from taxes.

Council of State Complete.

The Council of State which is to act as the legislative body of the country after the adjournment of the Legislature is made up as follows: C. M. Cooke, Henry Smith, T. B. Murray, Jos. P. Mendonca, John Emmeluth, Mark P. Robinson, John Ena, Geo. W. Smith, D. L. Naone, A. G. M. Robertson, P. C. Jones, C. Bolte, Cecil Brown, W. C. Wilder, Jas. A. Kennedy. The first five were the appointments made by the President Tuesday.

House of Representatives.

The House was called to order at the usual hour. Prayer by the chaplain, roll call and reading of minutes followed.

Certain sections of the Land bill, which had been referred to a special committee, were reported on by Rep. Rycroft. Laid on the table for consideration with bill.

The same member presented resolutions passed by the Olaa Coffee Planters' Association. Tabled as above.

List of Crown lands not under lease, aggregating near 65000 acres, of which 20,000 might be classed as agricultural, was presented by Speaker Naone.

Further consideration of Land bill in Committee of the Whole was resumed, with Rep. Hala in the chair.

There was a general discussion over Section 81 regarding reservation strip on each side of volcano road.

Rep. Bond thought 250 feet was none too much, and could not see why it was desired to reduce it.

Rep. Rycroft expressed the opinion that 150 feet on each side of the road was sufficient to act as a wind break and enable tourists to view its natural beauty as well. The member spoke in favor of an amendment allowing settlers in Olaa to purchase 200 acres instead of 100 as in the printed draft.

Replying to a question of Rep. Richards, the Attorney-General explained that the reserved strip was for the purpose of natural scenery along the volcano road.

After some further debate on the matter the House took a recess until 2 p. m.

AFTERNOON SESSION.

Consideration of referred sections of the Land bill to special committee was continued. Sections 80, 81, 82, 83 were passed as amended. Sections 81 and 85 were stricken out. Rep. Robertson explained why the committee advocated striking out these sections, the principal one being that the material points were covered in others.

The same member moved that Section 86 be made Section 84 with an amendment providing for a park reservation along east side of volcano road running back 150 feet which could not be sold or leased for any purpose without the consent of owners in the rear. The Executive Council had placed a proviso in the printed bill that portions could be sold or leased, with consent of the Executive Council, for educational, religious or recreation purposes. This would not perpetuate the reservation, which was the object desired. In advocating the amendment the member contended that the reservation was absolutely necessary to coffee planters as a wind break, and should not be interfered with without their consent. He thought the Executive was inconsistent in placing the proviso in the section. The planters have a vested right in the reservation and they should be consulted before any sales or leases were made. It could only be used for educational, religious or recreation purposes by clearing, which would seriously interfere with the necessary life and production of coffee behind the strip. He moved that the section pass as amended.

The Attorney-General contended there was no inconsistency in the section proposed by the Executive. He rather thought the recommendation of the committee, if not absurd, was unsound. It would place the entire disposition of the reservation in the hands of those owning or holding leased lands back of the reservation. If this was allowed arbitrary use might be made of the power. He would favor an amendment containing a provision that no portion of the reservation could be sold or leased

without the consent of the Commissioners and Executive Council, and in such event parties adjoining be given the first opportunity of purchasing at the same price and on the same terms as others.

Rep. Kumaoha favored the printed section. People in that locality will raise babies as well as coffee; residents up there were very much in need of churches and schools.

Rep. Rycroft said the planters did not want to control the reservation, but pointed out the absolute necessity of the forest as a wind break. He wanted some provision made so that the reservation would be perpetual and the Government have no authority to dispose of any portion of it.

Rep. Robertson for the special committee would accept amendment offered by the Attorney-General, and introduced a substitute embracing main points as recommended by the Attorney-General.

On motion the committee at 2:55 reported progress as above, completing second reading of the bill.

On motion of Rep. Robertson the amended sections, which were of such length that they could not be put in the printed draft, were ordered typewritten and sent with the bill to be engrossed.

The Attorney-General moved bill pass second reading and be engrossed. Carried.

Rep. Richards for the Printing Committee announced that Act 6 had been printed and was ready for distribution.

A communication from Secretary Rodgers of the Labor Commission, referring to Paragraph 3 of Section 3 of the Land Commission Act was presented by the Speaker and read by Interpreter Wilcox. It stated that copies of the report would be ready for distribution in a few days.

On motion of Rep. Robertson Act 6, to incorporate the Honolulu Electric Railway Company, was made the special order of the day for Friday.

Act 4 was made special order for today (Wednesday) on motion of same member.

At 8:15 the House adjourned until 10 o'clock Wednesday morning.

ANNUAL CLASS DINNER.

Kamehameha Boys and Girls Made Merry Last Evening.

The annual class dinner at Kamehameha school was held Wednesday evening in the large dining hall of the boys' school. The gathering included pupils from all departments of the school, teachers, members of the alumni and trustees of the school.

The hall was beautifully decorated for the occasion with festoons of maize and cut flowers. On the walls near the head tables were the banners of the classes of '91 and '95 draped with the class colors. The graduating class occupied a special table on which was a beautiful centerpiece of magnolias, and about the plates were red and purple flowers typical of the class colors.

The discussion of edibles had not progressed far when members of the alumni started class songs and class yells which were heartily echoed by the graduates. The literary exercises were carried out under the able direction of Fred Beckley, president of the alumni association, and included interesting remarks by members of the alumni and songs by the glee club and members of the girls school. It was a merry gathering and decidedly interesting and gratifying to the guests and teachers. The exercises closed with a rousing cheer for Kamehameha, past, present and future.

Sarah I. Griffin.

Only a Scar Remains

Scrofula Cured—Blood Purified by Hood's Sarsaparilla.

"C. I. Hood & Co., Lowell, Mass.:" "It is with pleasure that I send a testimonial concerning what Hood's Sarsaparilla has done for my daughter. It is a wonderful medicine and I cannot recommend it too highly. Sarah, who is fourteen years old, has been

Afflicted With Scrofula ever since she was one year old. For five years she has had a running sore on one side of her face. We tried every remedy recommended, but nothing did her any good until we commenced using Hood's Sarsaparilla. My married daughter advised me to use Hood's Sarsaparilla because

Hood's Sarsaparilla Cures

It had cured her of dyspepsia. She had been troubled with that complaint since childhood, and since her cure she has never been without a bottle of Hood's Sarsaparilla in the house. We commenced giving it to Sarah about one year ago, and it has conquered the running sore,

Only a Scar Remaining as a trace of the dreadful disease. Previous to taking the medicine her eyesight was affected but now she can see perfectly. In connection with Hood's Sarsaparilla we have used Hood's Vegetable Pills, and find them the best." Mrs. MARIA GRIFFIN, Xenia, Illinois

Hood's Pills cure nausea, sick headache, indigestion, biliousness. Sold by all druggists. HOBKON DRUG COMPANY, 66 Wholesale Agents

Dr. J. COLLIS BROWNE'S CHLORODYNE

ORIGINAL AND ONLY GENUINE COUGHS, COLDS, ASTHMA, BRONCHITIS.

DR. J. COLLIS BROWNE'S CHLORODYNE—Vice-Chancellor Sir W. PAGE WOOD stated publicly in Court that Dr. J. COLLIS BROWNE was undoubtedly the INVENTOR OF CHLORODYNE, that the whole story of the defendant Freeman was deliberately untrue, and he regretted to say it had been sworn to.—See The Times, July 13, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE is a liquid medicine which cures PAIN OF EVERY KIND, affords a calm, refreshing sleep WITHOUT HEADACHE, and INVIGORATES the nervous system when exhausted. IS THE GREAT SPECIFIC FOR CHOLERA, DYSENTERY, DIARRHŒA.

THE GENERAL BOARD OF HEALTH, LONDON, REPORT that it ACTS as a CHARM, one dose generally sufficient.

DR. GIBSON, Army Medical Staff, Calcutta, states "TWO DOSES COMPLETELY CURED ME OF DIARRHŒA."

DR. J. COLLIS BROWNE'S CHLORODYNE is the TRUE PALLIATIVE IN NEURALGIA, GOUT, CANCER, TOOTHACHE, RHEUMATISM.

DR. J. COLLIS BROWNE'S CHLORODYNE Rapidly cures all attacks of EPILEPSY, SPASMS, COLIC, PALPITATION, HYSTERIA.

IMPORTANT CAUTION.—THE IMMENSE SALE of this REMEDY has given rise to many UNSCRUPULOUS IMITATIONS. N.B.—EVERY BOTTLE OF GENUINE CHLORODYNE BEARS ON THE GOVERNMENT STAMP THE NAME OF THE INVENTOR—DR. J. COLLIS BROWNE. SOLD IN BOTTLES 1s 1/2, 2s 1/2, and 4s 6d, by all Chemists.

## W. R. CASTLE IS CONFIRMED.

Council of State Members Not  
 Qualified to Hold Office

### SECOND READING CURRENCY ACT

Senate Confirms Other Appointments  
 Made by the President—Appropriation Bill Introduced—Action of House on Joint Rules—Special Orders

#### ELEVENTH DAY—JUNE 28TH.

The Senate devoted the most of its time Wednesday to an executive session in which the report of the special committee on the confirmation of W. R. Castle as Minister to Washington was considered. The executive session lasted about an hour and when the doors were opened it was announced that Mr. Castle's appointment had been confirmed. The following appointments sent to the Senate by the President at the opening of the morning session were also confirmed: Consul at Newcastle, N. S. W., W. J. Gillan; at Glasgow, Peter Denniston; Deputy Attorney-General, George W. Carter.

HON. WILLIAM R. CASTLE.

Confirmed by the Senate as Envoy Extraordinary and Minister Plenipotentiary to the United States.

Directly open session was declared Senator Wright stated that if he was in order he would move that the report of the special committee on the Castle appointment be made public. President Wilder promptly ruled that the Senate was out of order and the motion could not be entertained. The Printing committee reported the bill relating to an electric franchise for an electric plant at Hilo and the report of the special committee on the Land bill. Minister Damon introduced the appropriation bill for \$33,500 previously presented in the House. This measure took the regular course. No other business coming up the Senate adjourned to the usual hour Thursday.

Various rumors were afloat regarding the vote on the Castle appointment, it being variously estimated from 8 to 7, to 10 to 4.

#### House of Representatives.

The morning session was opened with usual prayer by the chaplain, roll call and reading of minutes.

Rep. Kamaooha presented a report from Committee on Joint Rules. Tabled and made special order of the day.

The following joint resolution was introduced by Rep. Robertson: "Whereas the system of land transfer and registry of deeds now in vogue in this country is unsatisfactory, and fails to accomplish the object intended; and whereas the great uncertainty in many of the titles to land tends to hinder and obstruct the development and progress of the country;

Be it resolved by the Senate and House of Representatives that the President of the Republic be requested to appoint a commission, consisting of three suitable persons, to consider the different systems of land transfer existing in other countries, and make a report thereon to the next session of the Legislature, with such recommendations as to them shall seem proper."

Under suspension of the rules, Act 2a, appropriating \$12,000 for expenses of special session of the Legislature, previously passed, was reconsidered and referred back to Finance Committee.

The Minister of Finance desired to withdraw appropriation bills 2a and 2c. Granted.

Report of Committee on Joint Rules was considered. These were adopted, except a few unimportant changes, which were referred back. The Secretary was instructed to inform the Senate of changes made in the rules.

At noon the House took a recess till 1:30 p.m.

#### AFTERNOON SESSION.

The Speaker announced that the order of the day was the first business for consideration.

3 certificates of \$5 denomination would prove of great benefit and convenience to residents in the country districts.

The bill was ordered engrossed and third reading set for Thursday.

Attorney General Smith stated it had been learned since action by the House that two of the members named for the Council of State were disqualified. These were John Ema and George W. Smith. The former was a member of both the Board of Health and Forestry Commission.

The latter was one of the Fire Commissioners. He moved that election of two new members be referred to same committee as acted previously and report to the House. Carried.

At 2 p. m. the House adjourned until 10 o'clock Thursday morning.

#### ABOUT FORMER RESIDENTS.

Sexton Wanted Pay for Services Rendered at Kalakaua's Funeral.

The following additional interesting news notes concerning Wray Taylor's recent visit to the Coast were kindly furnished by that gentleman yesterday:

Bicycle riding is all the rage in San Francisco at the present time. On Sundays particularly thousands of both sexes may be seen on wheels at the Golden Gate park and other parts of the city where the roads are good.

The ladies wear bloomer costumes, which are very becoming (perhaps not in all instances), while the gentlemen wear knickerbockers and heavy sweaters of various colors. They have many ways of advertising the different makes of bicycles, but the most novel to my mind was that to be seen in a Market street store. In the window a young woman dressed in a dainty, navy-blue, bloomer costume sits all day on a bicycle slowly working the pedals. Crowds of people (the majority young men) stand on the sidewalk watching her and making all kinds of remarks. It makes very little difference to the young woman; she is well paid for the exhibition, and it is the coin she is after.

Myron H. Jones, at one time organist of Fort Street church, is now busier at the Tamalpais Military Academy, San Rafael. Myron is looking exceedingly well. I had a long chat with him.

Captain William Davies got work on the steamer Hosmer as second mate, but on the arrival of that vessel in port two days before I left I learned that Davies had been discharged.

Rev. J. A. Cruzan, formerly of Honolulu, is now pastor of the Third Congregational church in San Francisco. He is looking well.

A. F. Hopke, for many years in charge of the Kahului store, is now to be found in the office of J. D. Spreckels & Brothers, Market street.

A Mr. Wizen, who keeps a drug store corner of Castro and Market streets, and who visited the islands a few months ago, has in his store window a nice collection of specimens of lava which he collected at the volcano.

It is very probable that next summer Honolulu will be visited by Mrs. Carmichael Carr (pianist), Sigmund Beel (violinist), and Louis Reine (cellist). All three are fine musicians, and would come to spend their vacation, giving one concert a week.

W. R. Dalley has charge of a company playing at the Alcazar. Some of the members were in Honolulu last year with him.

Coming out of Trinity Church one Sunday morning, Mr. Sexton, who had heard I was from Honolulu, came up and astonished me by asking if he would be able to collect his bill for services rendered at King Kalakaua's funeral.

#### THE PLANTERS' MONTHLY.

Editor Favors Larger Subsidy to Cable Than Heretofore Made.

The June issue of this periodical is received. Among the leading articles is one on the commerce of the Republic of Hawaii, referring to the more important topics in the report of the Collector General of Customs, showing the exports and imports for 1894, which combined amounted to \$14,853,977.99. The total number of passengers arriving at these islands, including those which simply touched here and passed on are given as having been 14,235, for the year 1894, which must have an important bearing on the business which a cable enterprise would find at this port. From the following paragraph, it would appear that the editor favors offering a larger subsidy to a cable company than has been heretofore made:

Some years ago the Legislature voted a subsidy of \$25,000 a year to a company represented by Sir Audley Coote, provided a cable was laid between the coast of California and these islands within a limited period. That offer has not proved a sufficient inducement to undertake the work. The question now arises, will it not be wise for the Government to increase its offer to \$50,000 a year, on certain conditions, among them that the grant shall cease or decrease whenever the receipts from cable messages show a surplus over the current working expenses, as they unquestionably will within a very few years. This subsidy will be equal to two per cent. interest on the estimated cost of the cable laid between Monterey bay and Honolulu.

Having used Chamberlain's Cough Remedy in my family and found it to be a first-class article, I take pleasure in recommending it to my friends. J. V. Foster, Westport, Cal. For sale by all medical dealers. BENSON, SMITH & Co. Agents.

Dr. Wayson, of the leper receiving station, has been granted leave of absence by the leprosy commission to take a trip around this island for his health. He will be accompanied by friends.

## NOW WEDDED FOR 25 YEARS.

Silver Wedding Anniversary of  
 Mr and Mrs Paul Neumann

Celebration One of the Pleasantest  
 Events Given in Honolulu—Numerous  
 Presents—Congratulations

One of the pleasantest events of the season was the reception given at the residence of Mr. and Mrs. Paul Neumann Tuesday, the occasion being a celebration of their silver wedding. During the evening over 400 friends were present and joined heartily into the celebration.

The delightful reception was followed by a banquet.

This, introduced during the first part of the evening, was certainly one of the prettiest and best executed features ever witnessed in Honolulu. Although danced here before, the effort made last night was perhaps the most successful.

As the strains of the music floated out upon the lanai, the dancers appeared gliding gracefully into the room. First came J. S. Walker and Miss Neumann, followed by A. Isenberg and Miss Kulmann Ward, Lieutenant Ziegler and Mrs. Bruguerre, J. M. Monsarrat and Mrs. Porter Boyd.

As the dancers issued from the room each couple courtesied gracefully to Mr. and Mrs. Neumann, who were seated in the place of honor. The enjoyment of the dance was much appreciated by those who witnessed it.

Later in the evening the Kawaihau orchestra, stationed near the lanai, furnished music for dancing, which was indulged in until a late hour. There were several hundred prominent guests present during the evening.

The presents were numerous and beautiful. Among the collection were dinner sets, forks, knives, spoons, tray plates, salad and asparagus forks, bureau set, cut glass vases encased in silver and candle holders.

Mr. and Mrs. Neumann treated their guests right royally and gained the admiration of all those present by their ease and grace in entertaining.

Mrs. Neumann and Lieutenant McVeigh, of the Bennington, danced a Spanish cachucha to the music of the "La Paloma."

## HAWAIIAN GAZETTE

SEMI-WEEKLY.

FRIDAY, JUNE 28, 1895.

LECTURER COOK's reminder that Hawaii is to be annexed to the United States and not the United States to Hawaii is a good point for enthusiasts inclined to criticize the supposed inaction of this Government to remember.

JUDGE HARTWELL might well be styled the father of the legal profession in Hawaii. The reunion of his pupils last evening was a notable gathering from a legal and political point of view. He might well feel gratified in whose hands rested the early professional training of so many leaders in the public life of a nation.

The suggestion to give the volunteer companies a week of camp life is a good one and is in line with the high standards brought about by Colonel McLean in the military. One week of camp life with drills morning and evening will do more to prepare the military force of the country for active campaigning than months spent in manoeuvres on the boards of a drill hall, and an occasional battalion drill on the square.

When Lecturer Joseph Cook was in San Francisco he was credited with the remark that he would remain abroad until a new president had been elected in the United States. His first greeting on landing in this country was a hearty "Long live the Republic," and we believe it is safe to predict that the eminent lecturer will depart with a greeting none the less cordial for having become acquainted with the chief executive and general system of government of this little republic of the Pacific.

ONCE upon a time nine tailors of Tooley street got together and formed a mutual admiration society and, after proper discussion of public affairs until their heads were swelled to the regulation size, they finally came to the conclusion that they were "the people." They had no reasons to support their cause, they simply were, and that was the end of it. There were no two sides to the question. They had come to a decision, and why should their wisdom be questioned? Naturally enough the public could not be hoodwinked by the wisdom of these nine solons, but smiled at their small-minded wail, and "the people" were left to console themselves, being unable to cope with common-sense facts. The spirit of the Tooley street gathering appears to have caught the enemies of the W. R. Castle appointment. The public is sorry for them, and the poor tailors of Tooleyville have the sympathy of the community.

NO ONE can witness the closing exercises of the school year at Kamehameha without becoming impressed anew with the rich legacy bestowed upon the country by Mrs. Bishop. Commencement week with all its pleasures, is the time of all others when teachers and more particularly the public, draw up the balance sheet of general results and determine within themselves whether or no the educational investment has been a good one. Members of the alumni return to pay tribute to their alma mater, and the business eye of the world, their former teachers and the undergraduates is turned to them noting the standard of excellence that has been maintained as a result of their early instruction. The graduating class for the time being is measured by their record in the classroom, but in the alumni is demonstrated the measure of sound principle gained in their school days. In elevating the standard of true manhood and womanhood among the native Hawaiians, Kamehameha School has done and is doing a splendid work that is bound to be a power for good in the future history of the nation.

The HAWAIIAN GAZETTE is issued on Tuesdays and Fridays.

## CONFIRMATION OF MR. CASTLE.

In confirming the appointment of W. R. Castle members of the Senate showed themselves true to their trust as representatives of the people in the Republic of Hawaii. It would certainly be a matter of surprise had they done otherwise. It was perfectly proper in consequence of the opposition expressed that the matter should be held in abeyance until every man and organization with an idea proper or con should have opportunity to express their opinions before the select committee.

The final vote of the Senate is proof positive of the position taken by this paper, that in all the opposition to Mr. Castle nothing has been brought out that would recommend itself to unbiased, sober judgment as sufficient grounds to disqualify the gentleman named by the Executive as the representative of Hawaii at the all-important post of our diplomatic corps.

It cannot be denied that Mr. Castle's opponents left few stones unturned in their attempt to defeat him, but so far as known their action was honest and above board, and no ill-will is harbored because their efforts were not successful. In a political sense, it was a fair fight in which the best man won. With what wisdom their action was attended remains to be demonstrated in the official action of Mr. Castle, which we believe will be convincing evidence that the supporters of the Executive and friends of Mr. Castle knew whereof they spoke.

All the objection that can be offered is that the Senators should see fit to clothe their action with secrecy. What possible advantage is to be gained by secret sessions of a body of legislators elected to do the bidding of the people is a hard question to answer. What is not proper for the people to hear and know is not proper to be spoken. Executive sessions are farcical, and do not savor of true republicanism. Though members are sworn to secrecy it is a well known fact that sooner or later the proceedings come to the public ear, and become public property. Notwithstanding the custom is in vogue in the United States, the principle is the same.

We would heartily endorse Senator Wright's plea to have the report of the special committee made public. We would go farther and advocate that all the proceedings be made public and the Senate be forever opened to the public when matters pertaining to local men and affairs are under consideration.

## POOR MAN'S CONDITION IMPROVING

Carroll D. Wright, chief of the National Bureau of Labor of the United States, in the May Forum argues the question whether or no the poor man is becoming poorer and the rich richer, and gives figures to show that while the moneyed bond-holder may gain riches more rapidly than in former times, the condition of the poor man is unmistakably improving.

In support of this statement Mr. Wright writes as follows: "Taking the whole number of persons engaged in all remunerative or gainful occupations, I find that in 1860 such persons constituted 26.19 per cent of the whole population. In 1870 this percentage had increased to 32.43, in 1880 to 34.68, while in 1890 it was 36.31, an increase of more than 10 per cent, relatively, in one generation, the period from 1860 to 1890. This, it should be borne in mind, is the percentage which the total number of persons engaged in gainful occupations is of the total population. If we examine now the percentage which this total number of persons engaged in all gainful occupations is of the persons 10 years of age and over which is the truer comparison, we find that the increase has been as regular, but a little greater, for in 1860 it was 36.72, and in 1890 47.95, an increase of over 11 per cent, relatively, in the thirty years named. This fact alone, it seems to me, answers conclusively and definitely

the question involved in the subject we are considering. If the total number of persons engaged in gainful occupations stood still relative to the population, the argument would not be so clearly carried, but with a constant and persistent increase in the relative proportion of this class of people to the whole population, and to the whole number ten years of age and over, there can be no other answer than an affirmative one."

In classifying the different occupations it is found that in farming there has been a decided decrease in the opportunity for employment owing to a great extent to the increased opportunities offered by the trades and professions. It is maintained, however, that even the condition of the farmer is bound to improve by the reaction that must take place sooner or later. When the halo of high wages cast about the mechanical industries by the rapid strides made in the last thirty years has become obliterated by sharp competition, the day laborer will return to the land satisfied with the comforts of a "little farm well tilled." In conclusion Mr. Wright remarks that while "more men have the opportunity of obtaining greater riches under present than under previous conditions, the general diffusion of wealth is represented by the great increase thereof, and that social and industrial progress and poverty side by side only from the relative point of view, because it is by comparison, when judging all things under higher conditions, that we become cognizant of the misery attending lower conditions."

## MONROE DOCTRINE OF TRADE.

Though England obtained the paltry \$75,000 indemnity from Nicaragua and thereby impressed her national power and dignity upon Nicaragua in particular and the South American republics in general, it is becoming a matter of vital importance to the commercial interests of Great Britain to what extent the military power can be exercised without a disastrous reaction upon the British trade with these patriotic and to a certain degree revengeful Spanish-Americans. Great Britain is powerful to compel submission at the point of the bayonet so to speak, but it cannot compel its enemies to patronize British markets and British merchants. Today Great Britain stands in danger of a general boycott throughout Central America and the possibility of a continental boycott which will turn the trade into strictly American channels.

The Jamaica Post of Kingston calls attention to facts which are tending toward live issues. It states that all foreign nations can afford to ridicule the political Monroe doctrine as the impotency of that principle has been fully demonstrated, but the business houses have to contend with the commercial Monroe doctrine which, though more subtle in its assertion of power is none the less to be feared. A continental boycott is styled as "nothing short of a national commercial disaster." Today Great Britain practically holds the fort and as the tide of civilization moves forward and markets multiply it stands the country in good stead to keep the peace with South American sentiment. Party leaders of the United States differ widely on the exercise of the political Monroe doctrine, and its strength depends largely upon political changes, but commercially and in business circles there is a determined effort to overthrow the supremacy of British trade in Southern markets. It is a task not accomplished in a year or a generation, but is a menace to British merchants that must be seriously taken into account.

What about the registration act? Small bills are pouring in on the Legislature in sufficient number to keep both houses in session to the time limit provided by the Constitution, but this important measure has failed to put in an appearance. It can hardly be

classed as a small bill being as it is of vital moment to the labor interests of the country. Though it may not be deemed best to take final action upon the measure there can be no harm in putting the matter in tangible form that it may be brought up early in the regular session. The Labor Commission in its report remarked upon the "importance of looking ahead," and might well have added the registration act to their list of recommendations.

With Mark Twain on the way and Lecturer Cook, Dr. MacArthur and the Marquards here, the "isolation" of Hawaii might well be classed as a misnomer. Few cities of its size are favored with the intellectual treat which the people of Honolulu enjoy from the notable globe-circlers which drop in from time to time.

## In the Supreme Court of the Hawaiian Islands.

JUNE TERM, 1895.

REPUBLIC OF HAWAII VS KAHAKAUIA AND KILIKINA HAKE (W).

BEFORE JUDD, C. J., FREAR, J., AND CIRCUIT JUDGE WHITING, IN PLACE OF BICKERTON, J. ABSENT FROM ILLNESS.

- (1) In a criminal charge of adultery against a wife, her husband is not a competent witness to prove their marriage. Compiled Laws, p. 376.
- (2) When evidence to prove a fact on the part of the prosecution is improperly admitted and thereafter the fact is confessed to be true by the defendant in her testimony, it is no ground for a new trial.
- (3) There being abundant evidence to sustain the charge of adultery though denied by defendant, the Court refused to disturb the verdict of guilty and grant a new trial.

## OPINION OF THE COURT BY JUDD, C. J.

On the trial of this case at the last term of the Circuit Court, First Circuit, the charge being adultery, the prosecution called Hake (Japanese) as a witness, he being the husband of Kilikina (w.), one of the persons charged, and, under objection by the defendants' counsel, testified that Kilikina was his wife and that they were married by Father Damon and identified the marriage certificate. The charge being adultery it was necessary in order to maintain it to show that one or the other of the defendants was a married person.

The statute of 1878 on the law of evidence, Sec. 63 (Compiled Laws p. 376) declares that the statute shall not render, in any criminal proceeding, any husband competent or compellable to give evidence against his wife, nor any wife competent or compellable to give evidence against her husband, except where such evidence may now be given. The evidence now under consideration not being one of the excepted cases, we think it was improperly admitted. But the evidence of the wife herself when she took the witness stand in defense, proved her marriage with Hake, she admitting it fully. No harm therefore was done, and the defendants are not entitled to a new trial on the ground alleged.

The defendants further say that the verdict was contrary to the evidence. A review of it shows that it abundantly proved the charge.

The exceptions are overruled. A. G. M. Robertson for prosecution; E. Johnson for defendants. Honolulu, June 26, 1895.

## TOUR OF THE ISLANDS.

Sequah Leaves on Tuesday for a Round Trip on Business.

Sequah leaves Tuesday for a round trip of the islands, visiting Hawaii, Maui and Kauai. While absent he will gather valuable statistics on many subjects, views of the volcano and other points of interest. It is the intention of Sequah to deliver in the future a series of illustrated lectures of the world as he has seen it, lime light views of all the countries, including Hawaii, will be shown. A number will be given in the United States and England. Places visited by Sequah include principal parts of the United Kingdom, Holland, Belgium, Spain, Cape Colony, Egypt, India, Burmah, Siam, Straits Settlement, Chinese and Japanese ports, Java, Australasia and Hawaiian Islands.

Sequah has enjoyed his stay in the islands and feels some regret in leaving a place so particularly blessed in climate and untold attractions.

## Howard Hitchcock Rusticating

D. Howard Hitchcock writes as follows to a friend regarding his recent whereabouts: "I have been rusticating most of the time in the Olua woods, where there is a jolly and very comfortable little bungalow eight miles this side of the volcano. I expect to remain in the same place for a short time, after which I shall go to work with my color box and palette."

## SAMOAN NATIVES ARE RESTLESS

Every Town and Village Being Taxed for Food Supplies.

THE WAR PARTY IS VERY STRONG.

Active Hostilities are Predicted—Nothing But War Will Make the Powers Act War Preferable to Passive Resistance to Authority—Outbreaks Expected.

APIA (Samoa), June 15.—Rumors from Atua are disquieting. A large number of natives have congregated there, armed and in a discontented state of mind. Every town and every village is being taxed for food supplies for the thousands collected together; even the bush in all directions is being searched by numerous foraging parties for wild yams and taro—not to mention pigs and fowl. It is evident that the political meeting at Lufilufi for which these people have assembled from far and near will be one of more than usual interest. The question of peace or war with the Government at Mulinuu will be discussed at length; that conclusion may be arrived at on this all important point can only be conjectured. That the war party is strong we may rest assured, as the inaction of the Samoan Government in regard to discussion generally and in enforcing the supreme court writs, has disclosed a weakness that their opponents are but too ready to recognize. The peace party at Lufilufi will probably be overpowered, and in our opinion the outcome will be active hostilities. In the true interests of Samoa we have no hesitation in saying that, under existing circumstances, war would be preferable to passive resistance to authority. Nothing but war, or some serious outrage against a foreign resident, will bring the great powers on the scene. Unfortunately, when the powers are in evidence very little is done but to further complicate the Samoan question; nevertheless, by means of native outbreaks, with their attendant evils, Samoa is advertised and brought more prominently into notice. It is a pity that such means are necessary, but facts in support of this assertion are undeniable, and for such facts we have not far to seek.—*Samoa Times*.

## CHINAMAN SHOT IN THE NECK.

Mongolian Gamblers Resist Arrest. Sixteen Locked in City Jail.

There was quite an exciting time early last evening in the vicinity of Piliokoi and King streets. A gang of Chinese gamblers who had gathered in Dr. Howard's wash room were indulging in a quiet game of fan-tan, when three members of the police force, led by Lieutenant Luahiwa, surprised the Mongols by suddenly appearing on the scene. Through fright or some other cause several of the number offered resistance when an effort was made to arrest them. This action made it necessary for the police to fire on the gang. The shot from Officer Luahiwa's revolver struck Ah Pau at the juncture of head and neck. The bullet very fortunately struck the occipital bone and glanced off, saving the man from almost certain death. Dr. Emerson dressed the wound. In the scrimmage which followed several of the Chinamen escaped through the windows, but sixteen were brought in safety to the police station.

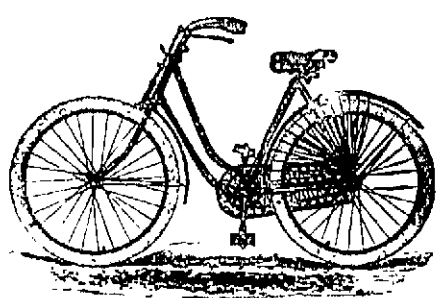

## INDIGNATION MEETING.

Hack Owners and Others Protest Against Vehicle Tires Act.

There will be a largely attended meeting this evening of hack owners and others affected by the Vehicle Tires bill introduced in the Senate by J. A. McCandless. A formal protest in the shape of a strongly worded petition will be prepared, numerously signed and forwarded to the upper and lower houses.

Hackmen declare the bill to be obnoxious, unnecessary and unwarranted. Should the act as introduced become law, it would work serious injury to a large number of people—hack and carriage owners particularly. Under such a law every vehicle used by the Government, and others, such as drays, dump carts, etc., would have to be altered to conform to the new order; such would necessitate the expenditure of thousands of dollars by the Government. At any rate, carriage and repair shops would reap a large sized harvest.

## Timely Topics

June 22, 1895.

Some fifty thousand shoe operatives are idle in England, in consequence of a lockout brought on by disputes with their employers. The development of the trouble between employers and workmen forms a chapter in the history of the irresistible home, subject to all the ills of the sweating system. The United States with its extraordinary development of machinery, has long since been ready to enter into international competition with England in this profitable trade, and American manufacturers has easily seized upon the opportunity to introduce their wares into regions heretofore monopolized by the British. Meanwhile employers and employed throw the blame of the dispute on each others shoulders, while outsiders deplore that neither party seems to be able to fully recognize the force of circumstances. Meanwhile during the disorganization caused by the present lockout, an admirable opportunity is offered for the American manufacturer to enter Colonial markets.

This is the age of improvement and invention. At no time in the history of a nation has there been such rapid strides made in the number and class of inventions as has been made in the last few years, and the wonder of the Nineteenth Century is the Monarch Bicycle.

Healthy out door exercise creates a love for the beautiful in nature, a love for the beautiful develops lovable men and women. Lovable men and women make happy homes; happy homes create a wealthy nation; a wealthy nation composed of the happy homes of lovable men and women is greater than any monarchy, for every citizen is a monarch and should ride a Monarch wheel. Among high grade bicycles the Monarch is Monarch. The frame is the most important part of a bicycle. In riding the greatest strain is on the frame and to withstand the strain the frame must be exceedingly strong and rigid. The frame of the Monarch is made of the best quality of specially drawn Mannesmann Steel Tubing, and is put together with such appliances that it is perfectly true and accurate. Brazing is one of the most important operations and has to be done very delicately by expert workmen. So successful is this process, that in all the years the Monarch has been on the market there has never yet been a break on a Monarch Bicycle at a brazing from any cause.

There are no castings used in any part of the construction of the Monarch Bicycle. Nothing but steel drop forgings and selected sheet steel stampings. As regards tires we give you your choice of six makes, namely: Morgan & Wright, New York, Hartford Single Tube, Gormully & Jeffery, Dunlop & Palmer, any one of these will be fitted without extra charge to the purchaser.

All we ask is that you give the Monarch a chance and it will establish itself.

## BRITISH RULE AT SINGAPORE.

Judge Hart Discusses Points Presented by Prof. Alexander.

ONE BLOOD IN ALL NATIONS.

Power Holding the Reins are Helping to Build a Civilized State—Chinese Accept European Ideas—Attend English Schools and Sit in Legislatures

MR. EDITOR:—Professor Alexander addressing the last meeting of the Social Science Club, on the subject of immigration, after alluding to the "Wise policy of the British Government" in the island of Singapore said, "These islands have not yet become a Singapore, but we have gone dangerously far in that direction." Professor Alexander also said that the island, Singapore, was formerly "Occupied chiefly by tigers," but *mirabile dictu*, under British rule and guidance, a thriving city of over 200,000 souls has been evolved together "With a great port of call for shipping." The "Motley congregation of human beings" of which the professor speaks rather disparagingly, may it not be a partial realization of possibilities suggested in the idea of which I have somewhere read that, one blood runs through all nations of men? However this may be, the conditions of life at Singapore are not probably, ethically or esthetically, on a par with those of Boston or Paris, but there is, possibly, a question of how far we should be traveling "dangerously" were all our affairs guided with the discretion that rules in that "British crown colony of a despotic type."

I will, with your permission, presently show how certain advantages of no mean order have accrued to Singapore from efforts "to extract from it its latent wealth," and in this respect probably Professor Alexander is wrong in suggesting a comparison between Venice and Holland, and Singapore, as showing the outcome of two processes that he looks upon as very different, if not antagonistic, but which history shows, play necessary, and almost inseparable, parts in the evolution of mankind to higher levels. The conditions that obtained in Venice and Holland, and those recognized in Singapore are so absolutely unlike, that inferences drawn from such comparisons, for our own guidance, might very easily be worse than useless.

Moreover, it can be shown that the power holding the reins at Singapore, working together with those that are seeking to extract from the country its "latent wealth" are, together, helping to build up a "civilized state" in the best way the local conditions permit. What more did Venice or Holland? What more has any country ever done?

Touching Singapore, a recent writer says, "The Malay natives being hopelessly indolent, and the climate being quite unsuited for European laborers, no industrial progress would have been possible without the Chinese, who have ultimately become next to ourselves the most important element of the population, and in 1891 numbered 184,000 males and 43,000 women. These figures include 34,700 born in the colony, of whom 16,800 were males and 18,400 were women. \* \* \* Among the Chinese born in the Straits Settlements the traditional antipathy of their nation to European institutions is much modified. They no longer have any desire to visit China, and they permit their daughters to learn the English language in the Colonial girls' schools, which are open to all nationalities. The young men and boys have acquired a taste for English outdoor sports, such as bicycling, cricket and football and have become so proficient that, European clubs do not despise them as antagonists. The Chinese have seats in the legislative council and on municipal boards, and are admitted to the colonial bar. In these various ways the barriers so long maintained between the Europeans and the Chinese are being gradually reduced and an identity of interests is being recognized."

As many of your readers will say with me, "Homo sum: nihil humani a me alienum est." Therefore I ask space for this communication. Yours obediently,  
CHARLES F. HART.

Must Annex Hawaii.

Major Pearce, who has reached San Francisco on his way home to St. Louis after a tour around the world, spoke for an hour on the "Natural and Industrial Resources

of the Orient," before the San Francisco Chamber of Commerce yesterday afternoon, says the Examiner of June 5th. Among other things the Major said: "The Hawaiian Islands, that little continent whose destiny is linked with our own, should belong and must belong to our country."

### Excursion on the Fourth.

With usual commendable enterprise, the Oahu Railway will run an excursion from Honolulu over its entire line, including the new extension to Waianae—distant 33 miles. Cheap rates will be offered, and many are sure to take advantage of a trip over this popular route.

### BIDS AWARDED FOR SUPPLIES.

Regular Weekly Session of the Board of Health Yesterday.

Routine Matters at Leper Settlement. Affidavits Against Dr. Armitage Reported by Dr. Monsarrat.

The regular weekly meeting of the Health Board was held Wednesday, President Smith in the chair. Present with him were Drs. Wood, Myers, Day, Howard, Emerson, Members Lansing and Waterhouse and Executive Officer Reynolds.

Reports of Dr. Monsarrat were read and filed. Routine matters at the leper settlement were reported in communications from Agent Meyers. In one of these certain members of the colony desired to use Dr. Goto's medicines and take baths as formerly prescribed by him. Dr. Wood spoke plainly about this matter. He claimed ordinary hot baths as recommended by the leprosy board equally as efficient as those given by Dr. Goto. It is not a question what the lepers want, but that which the Board and medical men recommended. Quarters should be provided at the settlement for experiments and of such proportions sufficient to accommodate a number of patients. Until this was done and the results made plain there would be continued suggestions from lepers as to what they desired.

A recommendation for renewal of a coffee saloon license at the settlement was favorably considered.

Sheriff Williams wrote from Hilo that a Japanese physician, Dr. Yamamoto, was violating regulations of the Board by allowing a assistant twelve miles away to furnish medicines as telephoned by him. Referred to Attorney General for action.

A communication was read from Dr. Armitage, stating that Dr. Marawa was leaving Waiuku and the islands. The doctor had rendered valuable assistance to Maimani Hospital. He asked that some official recognition of Dr. Marawa's services be made by the Board.

Five affidavits of charges against Dr. Armitage, Government physician at Waiuku were received. Four of them were in native. Ordered translated in time for next meeting.

Bills for furnishing supplies to the leper settlement were awarded as follows:

Lumber, Wilder & Co.; iron cut nails and boiled oil, H. Hackfeld & Co.; turpentine, F. O. Hall & Son; white lead, Castle & Cooke; cement, Lewers & Cooke; lime, H. Hackfeld & Co.; galvanized iron pipe, different sizes, Honolulu Iron Works; No. 1 rice, Hopper & Co.; medium bread, Love's Bakery; flour, Castle & Cooke; No. 1 sugar, H. Hackfeld & Co.; salmon, best red, May & Co.; brown soap, H. Hackfeld; long card matches, J. T. Waterhouse; coarse salt, E. O. Hall & Son; kerosene oil, Castle & Cooke; Australian coal, Wilder & Co.; wheat, hay and bran, Union Feed Co.; oats, California Feed Co.

Those for Insane Asylum were: Meat, Metropolitan Meat Market; medium and fresh bread, Love's Bakery; brooms, J. T. Waterhouse (only bid); beans, H. May & Co.; green Kona coffee, H. May & Co. (by ballot three bids same price); flour, Lewis & Co.; long card matches, J. T. Waterhouse; oatmeal, H. May & Co. (by ballot three bids same price); kerosene oil, J. T. Waterhouse; onions, McChesney & Sons; potatoes, McChesney & Sons; corned pork, dried prunes, dried apples and raisins, Lewis & Co.; No. 1 Hawaiian rice, Hopper & Co.; No. 1 sugar, H. Hackfeld; Co.; coarse Hawaiian salt, H. May & Co.; red salmon, H. May & Co.; tea, McChesney & Sons; canned tomatoes, Lewis & Co.; algae, wood (only bid), Paul Isenberg; middlings, bran, oats, McChesney & Sons; tobacco (only bid), Hollister & Co.

Metropolitan Meat Market will purchase green hides from the Board at five cents per pound. McChesney & Sons follow at four cents.

The leprosy committee reported satisfactory progress of matters at Kalihl Receiving Station, with the exception of scarcity of water.

At 5 p.m. the Board adjourned.

A Remarkable Cure of Rheumatism.

WESTMINSTER, Cal., March 21, 1894.—Some time ago, on awakening one morning, I found that I had rheumatism in my knee so badly that, as I remarked to my wife, it would be impossible for me to attend to business that day. Remembering that I had some of Chamberlain's Pain Balm in my store I sent for a bottle, and rubbed the afflicted parts thoroughly with it, according to directions, and within half an hour I was completely relieved. One application had done the business. It is the best liniment on the market, and I sell it under a positive guarantee. R. T. HARRIS. For sale by all medical dealers. BAYSON, SMITH & CO., Agents.

F. L. Sharrat and Joseph Kennedy were discharged in the District Court yesterday morning on the charge of smuggling opium from the Australia.

### STRANGE CIRCUMSTANCE.

Passengers Failed to Come After All Arrangements Made.

T. W. Greig, bookkeeper at Paauhau, is expected in Honolulu on Sunday. He was here a few weeks ago expecting his mother and intended wife from the Colonies. On the arrival of the steamer Mr. Greig went out to meet them, but they were not on the vessel. A dog, however, which he recognized as belonging to the family was in charge of the butcher. On inquiring he learned that staterooms had been engaged for both ladies at Melbourne and the baggage put on the steamer, but though the vessels sailed three-quarters of an hour late, they did not put in an appearance. The baggage was put off at the last stopping place. Mr. Greig received no other word, and is consequently considerably exercised over the matter.

### Seven Pounds in One Week.

Not every man who is thin would thank you for fattening him. He doesn't want to be fat and for every good reason. Unnecessary fat is a load to carry about; it interferes with a man's power to work, shortens his wind, and dulls his wits. Yet, on the other hand, a certain amount of flesh is needed for health and comfort. For example: A man five feet high should weigh about 120 lbs.; a man six feet, 175 lbs. It is a regular ascending scale. The insurance companies allow a variation of 1 per cent. above or below it, and beyond those limits charge an extra premium. One shouldn't be much over or under his proper weight if he wants to be sound and hearty—and we all do want that.

Now we will tell you how Mr. Thomas Crosby, being under weight, gained seven pounds in a week. He had lost 1½ stone, which is too much off for a man who was never fatter than he naturally ought to be. It was this way. He was right enough up to May, 1891. At that time he began to feel ill and out of sorts. He had a nasty taste in his mouth—like rotten eggs, he says—and a thick, slimy stuff came on his tongue and teeth. His appetite failed, and what he did eat was, as you might say, under compulsion; and right afterwards he would have great pain in his stomach and chest. Plainly, something was amiss with him in that region. He was often dizzy, and cold chills ran over him so that he was threatened with fever. Of course we should expect a man who is handled in this way to lose strength. Mr. Crosby lost strength. In fact, he got so weak and nervous that he shook all over, and his hands trembled as if a current of electricity were running through him.

To use his own words: "I rapidly lost flesh, was 1½ stone lighter, and could hardly walk about. Once my parents thought I was dying and sent in haste for the doctor. I saw two doctors in Epworth and one at Epworth. Being interested in what he said, I left off trying other things and began taking this Syrup. In a few days I felt better, and presently I gained seven pounds in a week. At that rate I soon got back to my work, and have had the best of health ever since. I tell these facts to everybody, and am perfectly willing they should be published. You can see for yourself. Tom Crosby, Ferry Road Epworth, via Doncaster, December 22nd 1892."

After reading Mr. Crosby's story we seriously need to ask why he lost flesh. The minute he stopped eating and digesting his usual allowance of food he began to fall away. Trees, they say, grow as much from the air by means of their leaves as they do from the soil. But men don't. They've got to be built up through their stomachs. Indigestion and dyspepsia (Mr. Crosby's complaint) stops this process and poisons the blood. Being interested in what he said, I left off trying other things and began taking this Syrup. In a few days I felt better, and presently I gained seven pounds in a week. At that rate I soon got back to my work, and have had the best of health ever since. I tell these facts to everybody, and am perfectly willing they should be published. You can see for yourself. Tom Crosby, Ferry Road Epworth, via Doncaster, December 22nd 1892."

### The Blues Cured.

Dependancy and mental depression are more likely than not the result of poor digestion. Bodily infirmities or physical ailments. A cheering food-medicine, such as

### Angier's Petroleum Emulsion

will improve digestion, destroy disease germs, build up the general health, and thus remove the cause of depression. It has been aptly called "Bottled Energy." For throat and lung troubles, and all wasting diseases, it has no equal.
